Motion to move Joey Dickman Insurance Agent up on agenda. Joey describes damages for each building and estimated amounts, if these items are actually repaired there will be more money from the insurance company, monies already received were for dump fees. Will be changing insurance companies in April and the transition would be smoother if these items were fixed, it might be hard to get the buildings covered under new insurance with existing damages or open claims. Date of loss was August 11<sup>th</sup>, so repairs should be made by February 11<sup>th</sup>, it's possible to get an extension, however April 1<sup>st</sup> is the renewal date. Mayor will work on getting some estimates. Joey states if the expenses are more than the insurance estimate we can submit bills and possibly get more.

Departmental Reports: Fire dept – none. Library – none. Streets – none. Water/Sewer – none. Maint /Equip – windows are being installed at the bus barn on Wednesday.

SEH Well Project – Christina Skalko in attendance, process is running smoothly. Discussed preferences for discarding of sludge from drilling, it would be up to the contractor unless specified in the plans. Council would prefer to have it hauled away, or at least be strained before letting the water go into the sewer and then hauling away the remaining debris. Brought an application for City to fill out for Alliant Energy to put in 3-phase electric and natural gas. Also starting a new application to add to the planning and design loan, which was originally estimated for a smaller Phase I. Asking for an additional \$22,076. Would not be any more engineering fees for this part of the project, however will still need to pay legal and other administrative fees to various agencies.
